**DETAILED ACTION**

***Status of the Application***

- [1] Claims 26 and 29-43 are pending in the application.
- [2] Applicant's amendment to the claims, filed on 12/29/06, is acknowledged. This listing of the claims replaces all prior versions and listings of the claims.
- [3] In view of the claim amendment filed on 12/29/06, all rejections set forth in the Office action mailed on 11/8/06 are withdrawn.

***Examiner's Amendment to the Claims***

- [4] An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
- [5] Authorization for this examiner's amendment was given in a telephone interview with Ms. Jane E. Inglesi on 3/12/07.
- [6] The application has been amended as follows:
  - (i) Please replace the second occurrence of ---a--- in lines 3 of claims 26 and 36 with ---the--- such that lines 3 of claims 26 and 36 read, "(a) preparing a synthetic analog of the parent human growth hormone".
  - (ii) Please replace ---anionic--- in lines 2 of claims 34 and 42 with ---anodic---.
  - (iii) Please replace ---electrotransport--- in lines 3 of claims 34 and 42 with ---electrotransport---.

***Reasons for Allowance***

[7] The following is an Examiner's statement of reasons for allowance. The method of claim 26 has been limited to the use of SEQ ID NO:8, except at least one Gln residue at position 16, 30, 31, or 36 is replaced with a His. The method of claim 36 has been limited to the use of SEQ ID NO:8, except at least two Gln residues at positions 16, 24, 30, 31, or 36 are replaced with His. While variants of human growth hormone releasing hormone are known in the prior art (see, e.g., Vale et al., US Patent 4,528,190; cited in a prior Office action), the examiner can find no teaching or suggestion in the prior art of record for a human growth hormone releasing hormone as encompassed by the claims. Therefore, the claimed invention, directed to methods of delivering the analogs of human growth hormone releasing hormone as noted above through a body surface by electrotransport, are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David J. Steadman whose telephone number is 571-272-0942. The examiner can normally be reached on Monday to Friday, 7:30 am to 4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kathleen Kerr Bragdon can be reached on 571-272-0931. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
